**program notes**

The English translation of title is "Our capsule", I mean "our environment", which I want to stress is mainly the city. The work is based then on urban sounds organized to transmit the impression of a tough and harsh reality, a grey city with concrete constructions everywhere. This work is dedicated to Esteban Crespo, movie director whose *Amar* film inspired this music.

Speakers configuration:

1 2 stage / front  
3 4  
5 6  
7 8 back
